JANANAPRIYA T

SUMMARY

Third-year Computer Science Engineering student with strong interest in AI, Machine Learning, and software development. Experienced in developing real-world projects including customer churn prediction and smart agriculture systems. Eager to apply technical skills and gain hands-on experience through internships and entry-level software roles.

EDUCATION

B.E. Computer Science and Engineering (2023 – 2027), Anna University

- Top 10 in class | Scholarship holder | All-rounder

Class XII – National G Open School (2023)

- 81% | Top 3 in class | All-rounder

Class X – National Open School (2021)

- 85% | Stage Speaker

TECHNICAL SKILLS

Programming: Python, C, Java

Tools & Technologies: Figma, MS Office,

Core Concepts: Machine Learning and Deep Learning, Cloud Computing, DSA, Artificial Intelligence, UI & UX, Web Development, IoT Basics

SOFT SKILLS

- Problem-solving
- Communication
- Teamwork
- Quick Learner
- Research and Development

PROJECTS

1. Customer Churn Prediction using Machine Learning

Developed a predictive model to identify customer churn in telecom data. Performed data preprocessing and

exploratory data analysis. Implemented algorithms like Logistic Regression and Random Forest. Achieved high accuracy with optimized model performance ---[2024]

2. Smart Travel Planner (UI/UX Design)

Designed a mobile application UI using Figma.
Created user- friendly interface for trip planning and budgeting-----[2025]

3. NextGen Smart Agriculture System

Built an AI and IoT-based smart farming solution. Used drone data and soil sensors for crop and moisture monitoring. Automated irrigation system based on real-time conditions-----[2026]

CERTIFICATIONS & ACHIEVEMENTS

Participated - Zomathon Hackathon
Participated - inter-college hackathons
Attended national-level hackathon at Saveetha Engineering College
Participated - web development events
Participated - poster presentations
Participated in symposiums in own college and other colleges
